# Running Reports

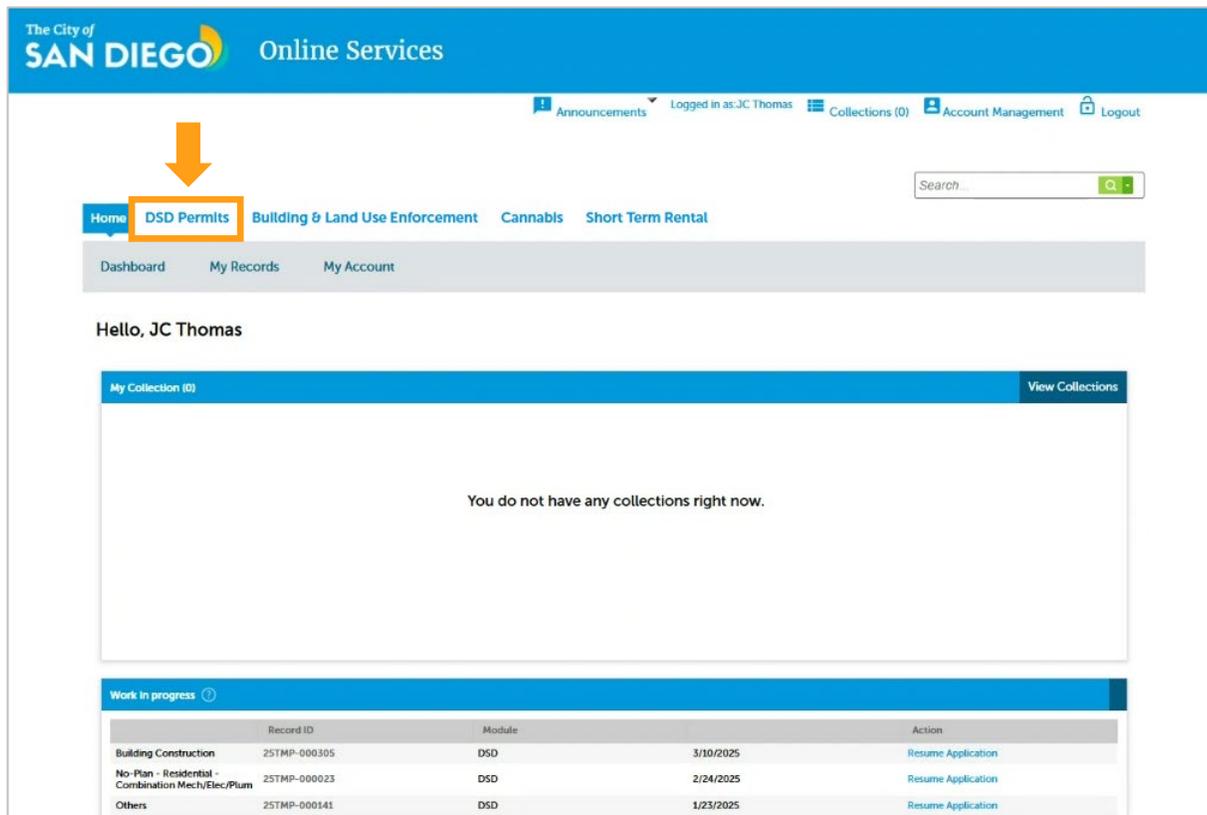

Development Services' online services portal offers several reports that allow customers and the public to check on a project's features and status.

1. To begin, log in to [your online services account](#).

You are initially directed to the *Dashboard* screen.

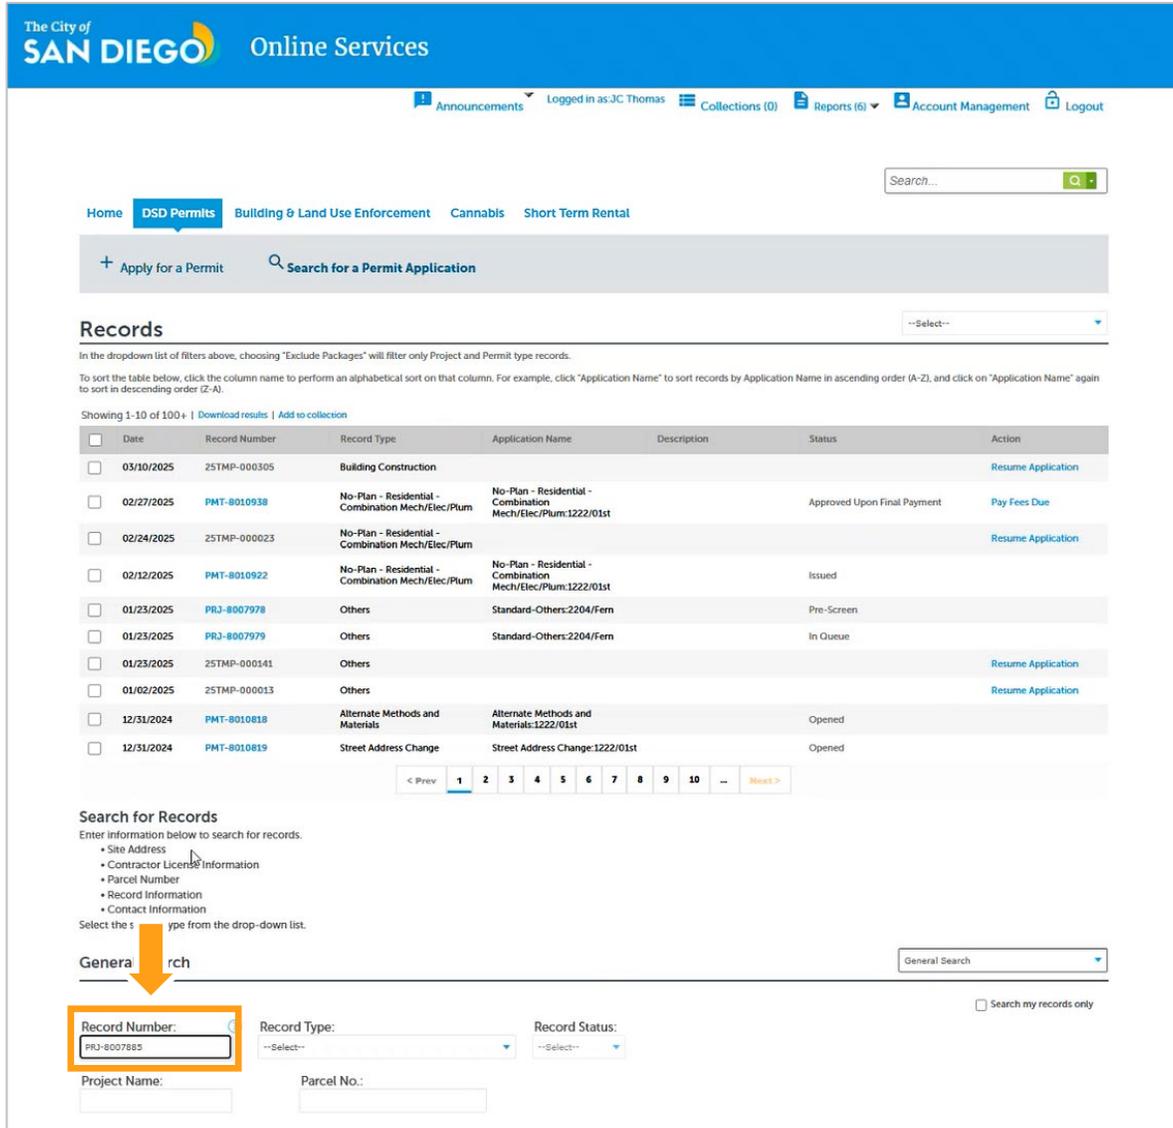

2. Click "DSD Permits."

The next screen shows a list of your projects and issued permits. From here, there are two ways to output a report for an application in process or for an approval.

### Method 1

Under *General Search*, enter the project (PRJ) or permit (PMT) number in the *Record Number* field.

The screenshot displays the 'Records' page in the City of San Diego Online Services portal. At the top, there is a navigation bar with 'SAN DIEGO Online Services' and user information. Below this, a search bar and navigation tabs are visible. The main content area shows a table of records with columns for Date, Record Number, Record Type, Application Name, Description, Status, and Action. A search section below the table provides options to search by various criteria, with an arrow pointing to the 'General Search' section. In this section, the 'Record Number' field is highlighted with an orange box and contains the value 'PRJ-8007885'. Other search fields include Record Type, Record Status, Project Name, and Parcel No.

**Search for Records**  
 Enter information below to search for records.  
 • Site Address  
 • Contractor License Information  
 • Parcel Number  
 • Record Information  
 • Contact Information  
 Select the type from the drop-down list.

**General Search**

Record Number: PRJ-8007885  
 Record Type: --Select--  
 Record Status: --Select--  
 Project Name:   
 Parcel No.:

You'll then be taken to the search result and its corresponding details and reporting. At the top of the screen is a link to reports that can be run for the displayed project or permit.

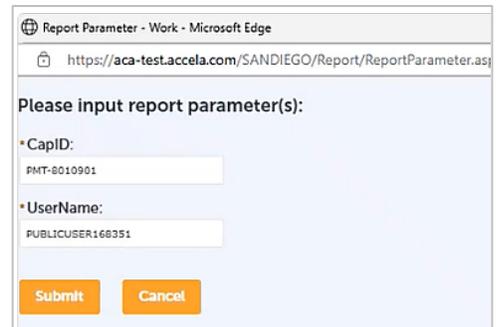

- Click the "Reports" link to review the types of reports available for the requested project or approval.

When you select a report type, a pop-up window will open with the pre-populated project or permit number (and your username, if applicable—see right), depending on the type of record you are currently viewing.

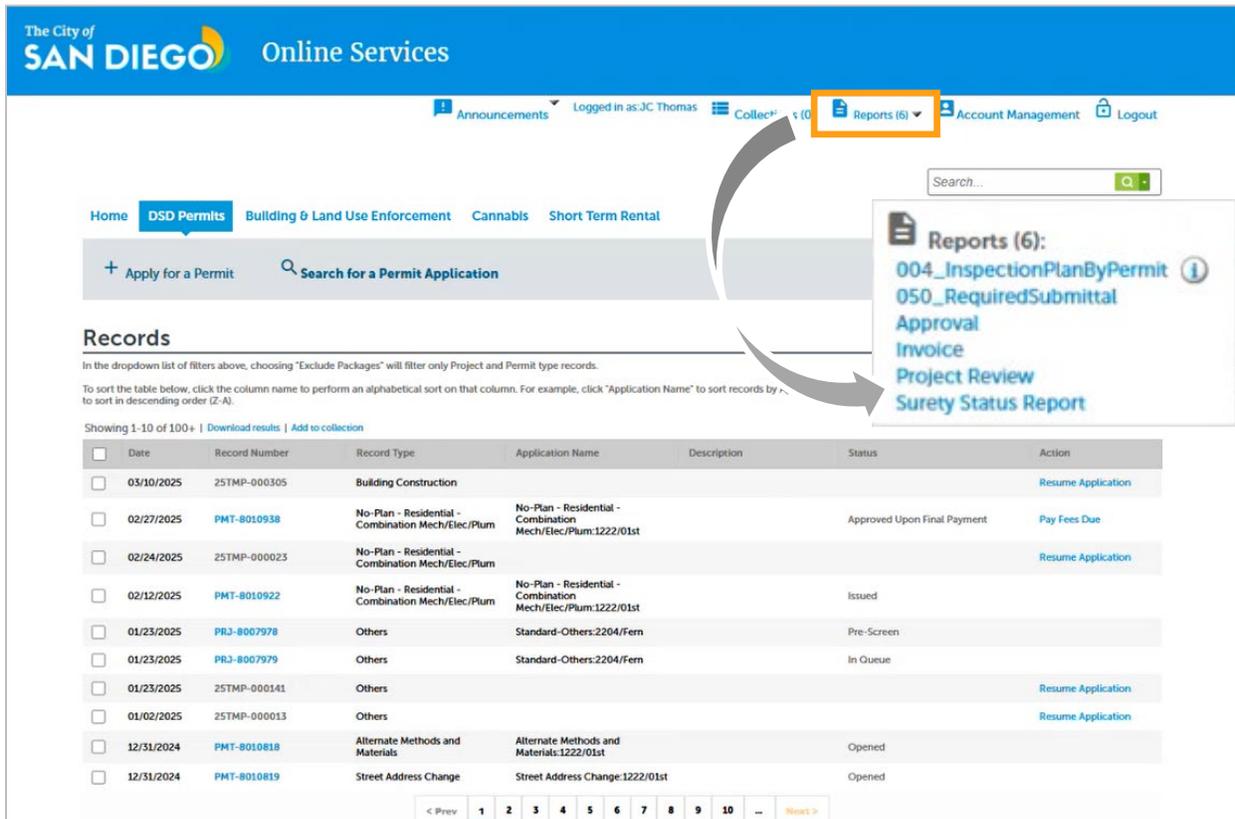

*Note:* If you do not see a pop-up window at this step, you will need to disable your browser's pop-up blocker.

- Click "Submit" to generate the requested report

## Method 2

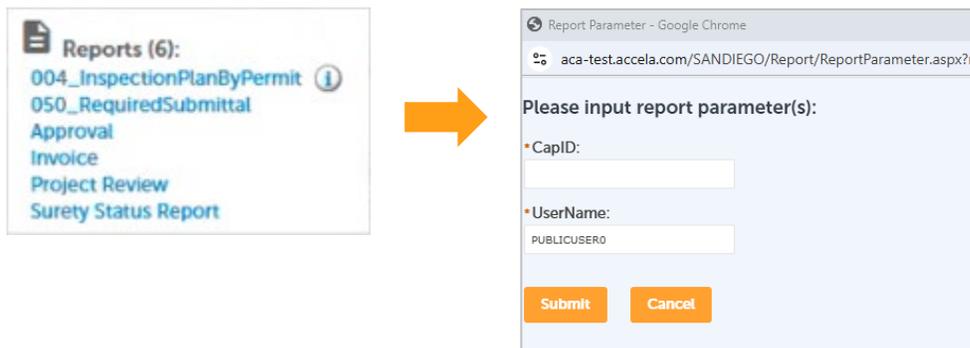

Rather than searching for the project or permit first, you can select the type of report you want from the DSD Permits landing page and then enter the project or permit number of interest.

The screenshot shows the 'Online Services' page for the City of San Diego. The 'Reports (6)' dropdown menu is highlighted, showing options: 004\_InspectionPlanByPermit, 050\_RequiredSubmittal, Approval, Invoice, Project Review, and Surety Status Report. Below the menu is a table of records with columns: Date, Record Number, Record Type, Application Name, Description, Status, and Action.

Date	Record Number	Record Type	Application Name	Description	Status	Action

01/02/2025	25TMP-000013	Others				Resume Application

12/31/2024	PMT-8010819	Street Address Change	Street Address Change:1222/01st		Opened	

1. First, select the type of report you want to run.
2. Then, enter the project or permit number into the field
3. Click "Submit" to generate the requested report.

The diagram illustrates the process of generating a report. It starts with the 'Reports (6)' menu, which includes options like '004\_InspectionPlanByPermit'. An orange arrow points to a 'Report Parameter' form. The form has a title bar 'Report Parameter - Google Chrome' and a URL 'aca-test.accela.com/SANDIEGO/Report/ReportParameter.aspx?m'. Below the title bar, it says 'Please input report parameter(s):'. There are two input fields: 'CapID:' and 'UserName:'. The 'UserName:' field contains the text 'PUBLICUSER0'. At the bottom of the form are two buttons: 'Submit' and 'Cancel'.
